PROFESSIONAL SUMMARY

Computer Science graduate (AI & ML) skilled in building and deploying full-stack web apps with React, Node.js, Express.js and PostgreSQL. Proficient in Python, JavaScript, REST APIs, debugging and testing, focused on clean, maintainable code and teamwork.

SKILLS

Languages: C++, HTML5, CSS, JavaScript (Node.js), Python
Frameworks/Libraries: React.js, Express.js, RAG, Prisma ORM, NumPy, Pandas, Machine Learning, NLP, REST API
Operating Systems/Databases: Windows, Linux (Ubuntu), MySQL, PostgreSQL, Qdrant (VectorDB)
Tools/Platforms: Visual Studio Code (VS Code), Git, Google Colab, Jupyter Notebook, Postman
Deployment: Vercel, Render, Neon Database
Core Concepts: Object-Oriented Programming (OOP), RESTful API Development, Debugging & Testing, Documentation, Problem Solving

INTERNSHIP(S) / WORK EXPERIENCE

1. FRONT-END WEB DEVELOPER — SkillCraft Technology (Oct 2024 – Nov 2024)

- Designed and developed responsive user interfaces and web applications, including a Weather App, using HTML, CSS, JavaScript, and React, writing clean, maintainable, component-based code. Collaborated with the UI/UX team in an Agile environment to deliver fast-loading, cross-device compatible experiences, consistently completing tasks ahead of schedule.

2. MACHINE LEARNING INTERN — IBM SkillsBuild (Nov 2024 – Dec 2024)

- Completed a Machine Learning internship exploring core ML concepts and applying them to real-world datasets. Focused on building predictive models, optimizing data preprocessing workflows, and applying supervised learning techniques to generate actionable insights.

ACADEMIC PROJECTS

1. SHOPZI — FULL-STACK MULTI-SELLER E-COMMERCE MARKETPLACE

- Built a full-stack multi-seller e-commerce marketplace using React, Node.js, Express.js, and PostgreSQL with product search, filtering, cart, orders, reviews, and seller management.
- Implemented Clerk authentication with buyer/seller role-based authorization and protected routes for secure access control.
- Integrated Stripe Checkout and Cloudinary for payment processing, stock validation, order management, and product image uploads.
- **Live App:** https://shopzi-nine.vercel.app/ | **Backend:** https://temporary-repository001-backend.onrender.com

2. FULL-STACK AI SAAS PLATFORM

- Built a full-stack AI SaaS platform using React.js, Node.js, Express.js, and PostgreSQL, featuring a responsive interface built with React, TailwindCSS, and React Router. Implemented JWT authentication and RESTful APIs to ensure secure user authentication and efficient data management, and integrated AI-powered features including content generation, data analysis, resume review, and an AI career roadmap to deliver a comprehensive user experience.
- **Live App:** https://quick-ai-mocha-seven.vercel.app/ | **Backend:** https://aiverse-hpt6.onrender.com/

3. TASKFORGE — FULL-STACK TEAM TASK MANAGEMENT APPLICATION

- Built a full-stack team task management application using React, Node.js, Express.js, and PostgreSQL with project, member, and task management features.
- Implemented JWT authentication, bcrypt password hashing, and role-based access control for secure Admin/Member permissions.
- Developed RESTful APIs, protected routes, Kanban task tracking, and dashboard statistics using Axios, Context API, and PostgreSQL.
- **Live App:** https://taskforge-gules.vercel.app/ | **Backend:** https://taskforge-krwe.onrender.com/api/

4. SMART GLASSES VISION – AI-POWERED ASSISTIVE DEVICE

- Collaborated with a team to build AI-powered smart glasses for visually impaired users, integrating real-time object detection and audio feedback to enhance navigation and independence. Built on Raspberry Pi 4 with a battery module; contributed to both software (Python, OpenCV, text-to-speech) and hardware (camera integration, power setup), delivering a fully functional, hands-free assistive solution.

EDUCATION

Lokmanya Tilak College of Engineering, Navi Mumbai — CGPI: 9.5/10

- BE in Computer Science and Engineering (Specialization in Artificial Intelligence and Machine Learning) (Nov 2022 – Jun 2026)

B.S. Johndhale Vidya Mandir and Jr. College, Thane — Score: 89.83%

- Higher Secondary Certificate (HSC) (Jun 2020 – Mar 2022)

COURSES & CERTIFICATIONS

Data Analytics — IBM SkillsBuild (Dec 2024 – Jan 2025)
AI & Data Skills — YBI Foundation (Jun 2024 – Jul 2024)
Python Programming — TalentBattle (Mar 2025)

ACHIEVEMENTS & POSITIONS

- 1st Rank — Secured a CGPA of 9.85 in 2nd year and 9.75 in 3rd year, BE in Computer Science Engineering (AI & ML)
- 2nd Rank — Secured 89.83% in 12th grade in college
- Group Leader — Led a team that qualified in the internal college round of Smart India Hackathon 2024 and was selected to represent the college at the national level
